# Meet the Candidate

JANAE ENGH

Hello! Our family of 7 currently raises Nigerian Dwarf goats and are dabbling in Nubians in Nowthen, MN. We attended our first show this year – it was such a great experience! The support and encouragement there made me want to get even more involved, especially on the show side of things.

Outside of goats, I work EMS, where staying calm under pressure and making thoughtful decisions with others in mind is part of what I do every shift. That experience has taught me the value of teamwork, clear communication, and supporting those around me – all things I believe are just as important in this capacity.

I co-run a 4-H club and serve on our counties Cloverbud committee, where I love helping kids grow their confidence, learn new skills, and feel welcome no matter their experience. I have an open and creative mind and enjoy finding fresh ideas and solutions.

I'd love to be apart of the MDGA Board in any capacity – helping connect members, supporting youth involvement and building the community that drew me in.

We sell artisan soaps and products from our goats milk. We have not had the opportunity to participate in linear appraisal but did participate in milk testing through Langston this year and looking forward to doing that again this coming year.

I love to garden, read and take pictures – (not on a professional level anymore, just for me). I participate in 4H for 13 years and showed beef cattle, horse and dairy goats.
