Meet the Candidate

YVETTE PETERS-HUTCHINS

I am results driven and direct. I am passionate about doing things well and to the best of my abilities. I like to think I have a great sense of humor.

I have been breeding Nigerian Dwarf since 2016. I average around 20 females.

I advocate about preventative management measures and mentor many in our local goat community.

My full time job involves working at the local elementary school as a paraprofessional specializing in managing behaviors. I am currently on year two of my elected presidency position within our union.

My herd has been participating in linear appraisal since the beginning and most recently, in 2024, we started attending ADGA-sanctioned shows. This year, we did participate in the ITP-O2 milk test program.

In my spare time I enjoy my horses and simple farm life.
